5. Key Pitfalls in Data Centre Projects: A Practical Guide Transitioning From PAM 2018 to FIDIC 2017 (Red and Yellow Book)
6. I would be interested in receiving notifications about any new courses, which I understand will be released monthly.

We at CIDEDEC Consultancy develops bespoke, non-generic construction training programmes tailored to your organisation’s operational needs.

Our courses address the specific knowledge gaps, competency requirements and challenges faced by project execution and delivery teams. They are designed to strengthen practical capabilities, improve project performance, reduce avoidable costs and contribute to greater profitability.

You may select from our existing construction courses or engage us to develop and customise a programme specifically for your organisation at no additional cost.

All courses are HRD Corp claimable and conducted on an en bloc basis at RM5,888 per training day for 8 to 13 participants, whether the selected course is from our existing programmes or specially developed for your organisation.

Effective 1 July 2026, HRD Corp requires up to two weeks to process grant applications. Please apply early, preferably at least three weeks before your selected training date.

To discuss your training needs, contact our Master Trainer, Mr Steven Chin, at +60 12-267 3918.
